Infrastructure Development and Construction Firm Engages Excend

A South American-based developer of roadways, hydroelectric and other public works hires Excend

Salt Lake City, Utah—November 14, 2016—Excend has been engaged to advise on a recapitalization and working capital transaction estimated at \$200MM for one of the leading infrastructure developers in Latin America. The firm develops projects including roadways, hydroelectric, water supply systems, sewers, public transit, and other infrastructure.

EXCEND provides advisory services to middle market companies in Latin America. Contact EXCEND at www.excend.com.
